HPE TRAINING CREDITS FOR SERVERS AND HYBRID IT SERVICES (HF385A1/HF385E)

HPE Education Services

With HPE Training Credits for Servers and Hybrid IT Services, purchasing and managing training is easier than ever. Be sure to include HPE Training Credits with your HPE order.

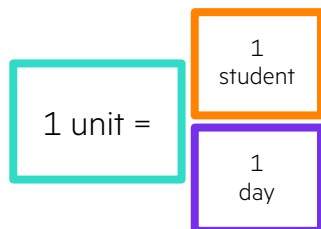

1 unit = 1 student / 1 day

With HPE Training Credits, one credit unit is equal to one day of training for one student in an open enrollment training course, or 6 hours of eLearning. Exceptions may apply.

Need to train a team of 8 or more?

If you need to train 8 or more people for a given course, a dedicated delivery may be more cost effective. Contact your HPE Sales Representative or Authorized HPE Reseller for a custom quote.

HPE Training Credits for Servers and Hybrid IT Services HF385A1 (Flexible) or HF385E (Fixed)

Benefits

- **Flexible**—Attend training as you need it. There is no need to know student names, dates or even locations in advance.

- **Practical**—Lock in budget dollars by pre-purchasing Training Credits while funding is available.

- **Convenient**—Minimize the time and effort spent on purchasing and managing training. A single purchasing transaction sets up your HPE Training Credits. Once your Training Credits are in place, students simply enroll for classes as needed—no additional funding, purchase orders or approvals are required.

Features

- Training Credits are valid for 12 months from the date of activation unless aligned to the term of the HPE GreenLake agreement.

- HPE sends a welcome letter with each purchase—so you will know exactly how to select courses, enroll in classes, and redeem your Training Credits.

- Training Credits may be universally redeemed for any training offered by HPE Education Services in the US or Canada, including open enrollment classes at HPE Education Centers, live, virtual, instructor-led classes delivered via VILT, dedicated private classes, self-paced eLearning courses, or HPE Digital Learner subscriptions.

- Training Credit units are priced at $1000 USD/$1200 CAD per day—the cost for one student to attend one day of public, open enrollment training for edge-to-cloud platform solutions, such as:

  o HPE Compute/Servers (HPE Synergy, HPE ProLiant, HPE OneView, Gen10+/Gen11, HPE Superdome Flex)
  o HPC (HPE Apollo, HPE Cluster Management, HPE Cray)
  o Hybrid Cloud (HPE Ezmeral, IT Containers, DevOps, RedHat, SUSE, Microsoft Azure, AWS, Google)
  o Cybersecurity
  o HPE GreenLake
